OBJECTIVE

Final-year B. Tech Computer Science (AI & ML) student with strong foundations in Machine Learning and Deep Learning. Seeking an AI/ML internship or entry-level role to apply hands-on project experience and academic knowledge in building scalable, real-world solutions. Strong problem-solving ability, a quick learner, and enthusiastic about emerging technologies.

EDUCATION

DRK Institute of Science & Technology, Hyderabad

B.Tech in Computer Science and Engineering (Artificial Intelligence & Machine Learning) | Nov 2022 – May 2026

GPA: 7.7/10

Masterminds junior College, siddipet

Intermediate (MPC) | 2020–2022

GPA: 9.7/10

Kerala Model High School, Ellanthakunta

SSC | 2010–2020

GPA: 10/10

INTERNSHIPS

AI & ML Intern - Elevate Labs | Apr 2025 – May 2025

- Built end-to-end ML pipelines including preprocessing, feature engineering, training, and evaluation.
- Implemented Random Forest, Logistic Regression, and SVM models for prediction tasks.
- Evaluated models using accuracy, precision, recall, F1-score, and ROC-AUC metrics.
- Improved model performance through hyperparameter tuning and data balancing techniques.

SKILLS

Programming: Python

Machine Learning & Deep Learning: Scikit-Learn, TensorFlow, PyTorch, CNNs, NLP

Data Analysis & Visualization: NumPy, Pandas, Seaborn, Matplotlib

Web Development: Flask, HTML, CSS, JavaScript

Tools & Technologies: MySQL, Git, GitHub, Docker, AWS (Basic)

PROJECTS

Fake Job Post Detection Using Machine Learning

Developed a machine learning-based web application to detect fraudulent job postings using NLP techniques.

AI Professor – Intelligent Learning Assistant Using Generative AI

Built an AI-powered educational assistant that provides structured explanations, key points, real-world examples, and related video recommendations

Adversarial Attack Detection and Robust Training System

Designed a system to detect adversarial attacks and improve model robustness using adversarial training.

CERTIFICATIONS

- Python for beginners – Simplilearn/skill up (Apr 2025)
- Machine Learning with Python – Free code camp (Apr 2025)
- Introduction to Python and Programming – (May 2025)
